ANOSECURE
DOORSETS
FD30

Anosecure FD30 is specifically developed by Hanson and Beards Ltd to meet the complex performance demands of apartment entrance locations.

Secured by Design

Police Preferred Specification

Product Features

- Secured by Design accredited with heavy-duty construction and performance tested ironmongery.
- Sound reducing specification assists in meeting the acoustic requirements of the Building Regulations Part E and related National Standards.
- Fire door and intumescent seals ensure that the doorset meets the Fire resistance and escape requirements specified by Building Regulations Part B and related National Standards.
- Thermal 'U' value properties assist in meeting the requirements of Building Regulations Part L and related National Standards.
- Doorset widths suitable for mobility access and low level threshold assist in meeting the requirements of Building Regulations Part M and related National Standards.
- Door leaf sizes up to 2100mm high and 1050mm wide.
- Supplied as a complete assembled unit ready for site installation.

Environmental

- Thermally efficient door construction helping to conserve energy.
- Manufactured from timber, a renewable resource.
- Engineered & re-cycled components used to improve material strength and reduce waste.
- Materials can be reprocessed at the end of the product's life.

Finishes

Door facings choices can be made from more than 3,000 finishes including veneers, inlays, laminates and RAL paint colours.

Materials

Doors are constructed using a high density multi layer core material with hardwood lippings applied to all four edges. The 80 x 54mm door frame is manufactured from 640kg density hardwood.

Ironmongery

High quality Swiss made single action 4 point espagnolette with EuroProfile lock incorporating an internal thumb turn. Lever handles are available in 'Satin SA or Satin Gold effect' finish options. Hinges are stainless steel, tested to BSEN 1935: Class 13 and CE marked, for lifetime performance and security enhancement. An eye viewer and security door chain are supplied as standard to complement the system in brass or chrome effect finish options.

Optional Extras

- Key / Key lock cylinder.
- FD30 fire resistant letterplate.
- 18mm hardwood threshold strip.
- Mobility height eye viewer.
